

## SHIMPO RK-3D

SHIMPO RK-3D pottery wheel includes all of the benefits of the Direct Drive Motor with a compact design.

### Features

- › Drive System; direct drive DC brushless motor
- › Wheel-head Direction; Clockwise/Counter-clockwise
- › 304 mm light alloy casting wheel-head, drilled for bat pins
- › Speed Control; fixed foot pedal with hand lever
- › Attached foot pedal with speed lever
- › Virtually quiet; no belts, no vibration
- › Wheel-head acts as a banding wheel when the pedal is at stop
- › Pedal stops the wheel-head immediately; no belt means no extra rotation when stopped
- › Higher torque; no belts
- › Maintains a specific set speed when stepping away to center, even with slow speeds with 100 lbs of clay

<b>Motor</b>	400W, single phase 230V, 50/60Hz
<b>Wheel-head</b>	304.8 wheel-head
<b>Wheel Dimensions</b>	525 x 582 x 51 mm
<b>Centering</b>	45 kg
<b>Wheel-head Speed</b>	0–250 rpm
<b>Wheel Weight</b>	52 kg

### Optional Accessory:

SHIMPO RK-3D manufactured after 1981 and all Master Series wheels when fitted with a 304 mm wheel-head. Both pieces of the splash pan remove quickly and easily for cleaning or when throwing larger ware. Shorter mounting bolts are required for use with our tables.
